To Whom It May Concern:

All products supplied by DigiKey are under the regulatory jurisdiction of the United States Department of Commerce and are subject to the Export Administration Regulations (EAR). (see www.bis.doc.gov)

DigiKey complies with the Foreign Corrupt Practices Act of 1977 (FCPA) and the United Kingdom Bribery Act of 2010 (UKBA).

We treat all information and documentation received from our customers confidentially.

DigiKey is not registered with the U.S. Department of State under the International Traffic in Arms Regulations (ITAR), as we do not manufacture or export defense articles or defense services. When documents are submitted to us, it is the responsibility of the document source to clearly identify relevant controls that may apply to it. When documents such as technical data, drawings, or specifications are received and clearly labeled as controlled under ITAR, they are accessible only to persons within DigiKey who are known to be U.S. Persons as defined in 22 CFR Part §120.15.

Country of Origin is provided on quotes, invoices, and packlists, generated at the line item level for every item requested. Due to our dynamic inventory model, we can only certify to the country of origin at the time the item is picked and packed for shipment.

Export Control Classification Numbers (ECCNs) and U.S. Harmonized Tariff Codes (HTSUS) are also provided on our invoices. When we are the U.S. Exporter, we are responsible for the accuracy of the ECCN and HTSUS codes and generally assign the codes through recommendations made by the manufacturers and through self-classification. An official ECCN classification may also be obtained from BIS through the Simplified Network Application Process – Redesign ([SNAP-R](#)).

We have contracted foreign call center personnel to facilitate alternative language preference requests made by customers. However, orders placed with DigiKey that are not “Marketplace” orders are processed and fulfilled through one of only two U.S. locations in Thief River Falls, Minnesota or in Fargo, North Dakota.

Inquiries regarding this statement can be directed to export.management@digikey.com.
