

Han® Yellock – Easy Press

Pushing Performance
Since 1945

Description

We are pleased to inform you about the relaunch of our Han® Yellock size 30 and 60 with a new mate and lock design. This new design has audible locking feedback, reduced unlocking forces, low mating force and high mating cycles to support easy and reliable locking systems for our Han® and Industrial products.

Specs

- Sizes 30 and 60
- IP65 / IP67
- -40 ... +125 °C
- M20 to M32
- Plain push button
- Mating cycles: 10,000
- DNV GL
- IEC 60664-1
- IEC 61984
- CE

Markets

- Machinery
- Robotics
- Railway
- Energy

Applications

- Power conversion systems
- Machinery panels
- Windfarm interfaces
- Industrial cabinet applications
- Distribution boxes
- Medical

Feature

Advantage

Benefit

- | | | |
|------------------------------------|--|--|
| ■ Audible locking feedback | ■ Clear locking feedback for secured connection | ■ Secured connection confirmation without visual inspection or additional tooling |
| ■ Reduced unlocking forces at ~35N | ■ Easy unlocking of connectors without tooling | ■ Easier use of product without tooling, making it friendlier to PPE or space constrained environments |
| ■ High mating cycles | ■ Enables repeated mating and unmating at a higher level | ■ Secure connection and integrity for applications where high mating cycles are needed |
