Rugged light pipe series designed to withstand harsh environmental conditions...

Moisture-sealed Rigid Linear Light Pipes from VCC
Provide NEMA 6P/IP67 Protection

POWAY, CA (August 13, 2014) — VCC, the global leader in indication and specialty illumination solutions, has expanded its rugged linear light pipe product offering to include moisture-sealed versions that provide protection up to NEMA 6P and IP67 ratings. Developed for harsh environment applications including safety, outdoor, military, aerospace, industrial machinery, and instrumentation applications, the ruggedized linear light pipes are easy to install and engineered to perform.

The LMS Series light pipes are rated to NEMA 4P and IP56, while the LCS Series light pipe offers protection to NEMA 6P and IP67. The 5mm threaded moisture sealed light pipes are offered in lengths ranging from 0.33" to 1.33". The LMS Series features a panel opening of 0.281" and the LCS Series has a 0.312" panel opening.

Featuring a UL94-V2 polycarbonate lens and thermo plastic elastomer (TPE) seals, the acrylic UL 94-HB light pipes are available in red transparent, amber transparent, green transparent, yellow transparent, and clear transparent colors.

For more information about the LMS Series from VCC, view the datasheet at http://vcclite.com/_pdf/LMS-moisture-seal-litepipe-drawing1.pdf

For more information about the LCS Series, view the datasheet at http://vcclite.com/_pdf/LCS-moisture-seal-litepipe-drawing1.pdf

About VCC

Based in Poway, California, Visual Communications Company, LLC, is the recognized leader in the development and manufacturing of innovative LED, incandescent, neon and specialty indicator light solutions for global markets including aerospace, medical, automotive, transportation, safety and industrial. VCC's design services group helps OEMs solve challenging applications involving the delivery of light with high-performance, innovative LED panel indication and illumination solutions. With nearly 40 years of experience, VCC and its distributors serve customers all over the world. Learn more at www.vcclite.com.
